1.2. Overview

This guide covers how to:

- Access the BDB Survey Plugin
- Design a Survey
- Publish a Survey
- Apply Analytics to the Survey

1.3. Target Audience

This guide is aimed at business professionals, data scientists, and management executives who use the BDB Survey plugin to interact with business intelligence data and collect responses to be analysed.

2. Introducing BDB Survey

2.1. Introduction to the BDB Survey

BDB Survey is a powerful platform that provides organizations with the ability to create unique, interactive, and operational surveys to gather valuable information from customer feedback to product research. It serves as an effective tool to collect, store, and analyze relevant information regarding any business aspect. Survey responses can be used to prepare various interactive reports and dashboards. Hence, this integration of BDB Survey with BDB Analytics makes it a robust analytic tool extracting hidden insights out of the collected data.

2.2. Prerequisites and Supported Devices

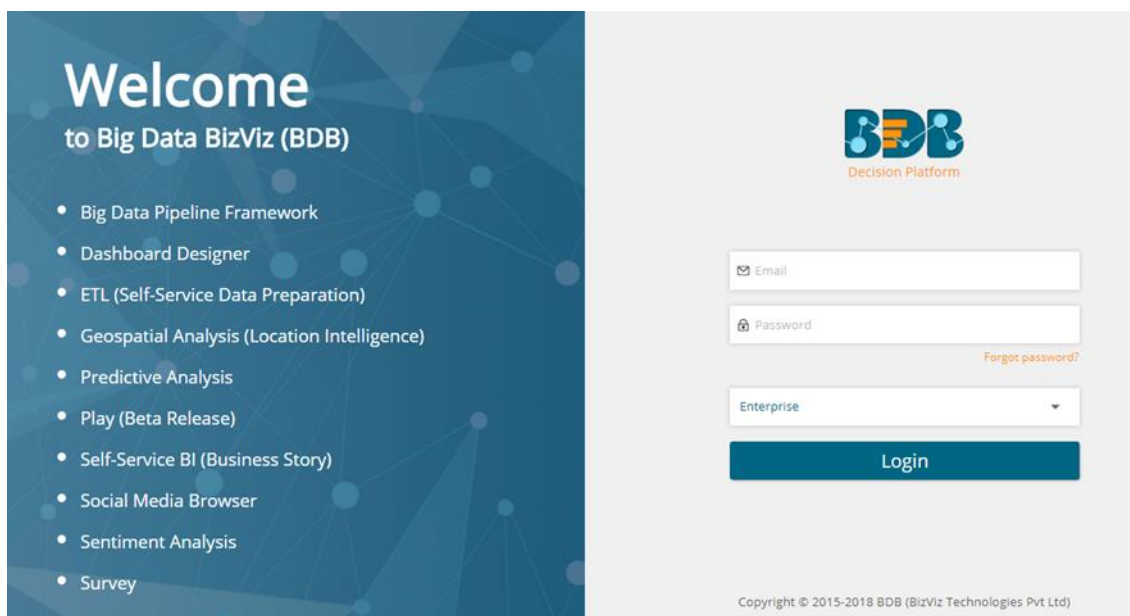

| Component | BDB Requirement |
|------------------------|----------------------------------------------|
| Computer and processor | Standard 64/32 -bit machine having good CPU. |
| Memory (RAM) | 2 gigabyte (GB) RAM |
| Operating System | Windows / Linux |
| Recommended Bandwidth | 2 Mb/s |
| Browser | IE10+ / Chrome / Firefox |

- BDB Survey can be supported through Web browser, Tablet, and Mobile Phone.

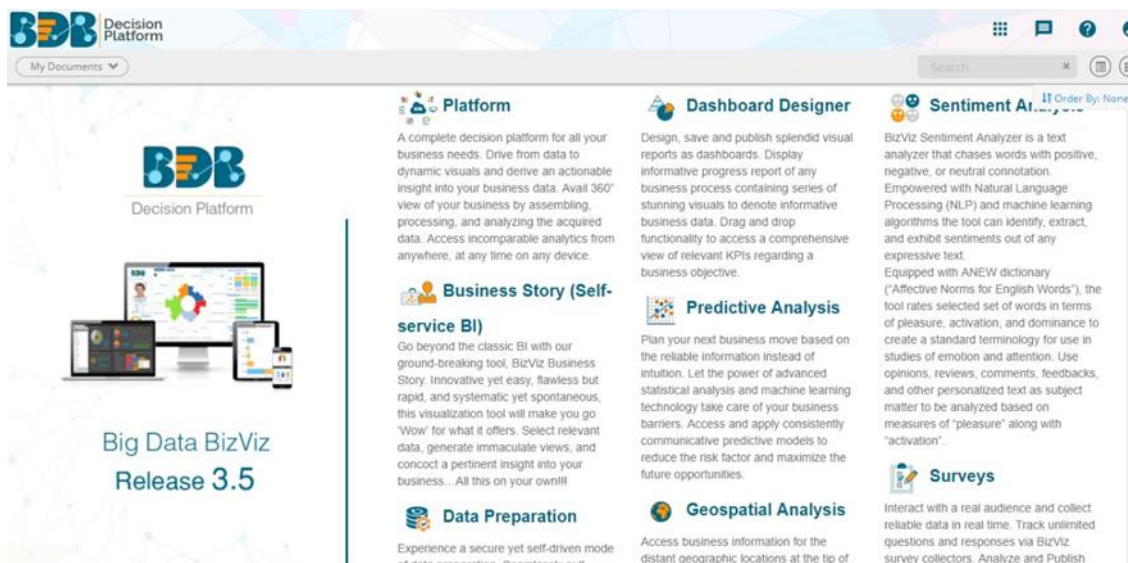

3. Getting Started with the BDB Survey

BDB Survey is a plugin application provided under the BDB Platform.

- i) Open BDB Enterprise Platform Link: <http://apps.bdbbizviz.com/app/>
- ii) Enter your credentials.
- iii) Click 'Login'.

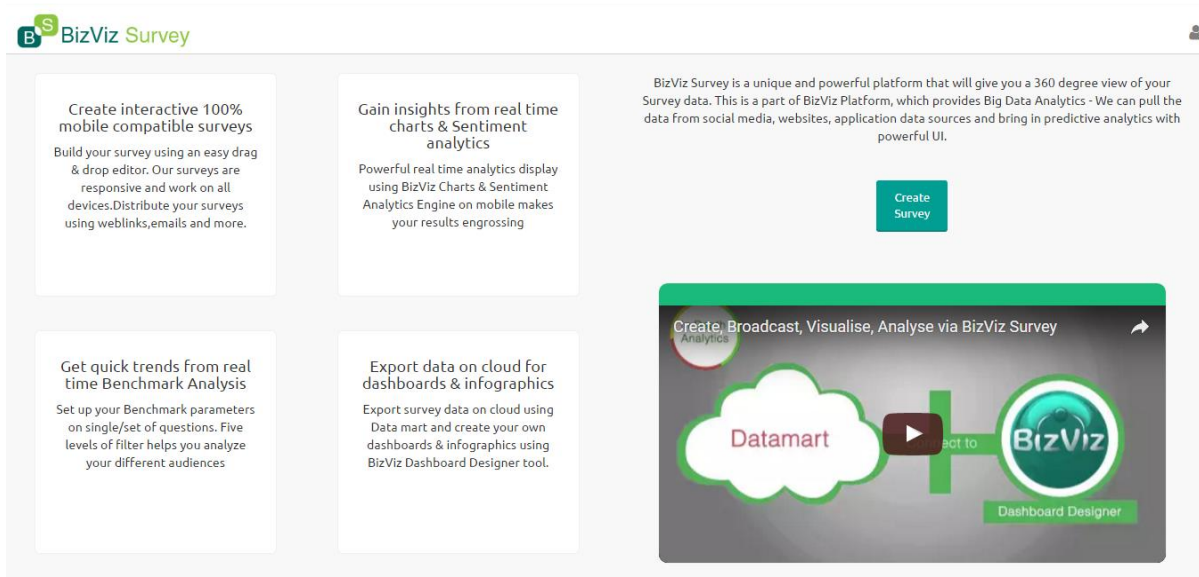

- iv) BDB Platform homepage opens.

- v) Click 'Apps' menu  to display a list of all the available plugins.
- vi) Select the 'Survey' plugin from the list.

vii) Survey homepage opens in a new window.

3.1. Forgot Password Option

Users are provided with a choice to change the password on the Login page of the platform.

- i) Navigate to the Login page
- ii) Click 'Forgot Password?' option

- vi) Users will be redirected to select a space and click the '**Continue**' option

vii) A notification appears stating that the reset password link has been sent to the registered email

- viii) Click the link from your registered email
- ix) The 'Reset Password' page opens to set a new password
- x) Set a new password
- xi) Confirm the newly set password
- xii) Click the 'RESET PASSWORD' option

xiii) The password is reset for the selected BDB account

4. Creating a Survey

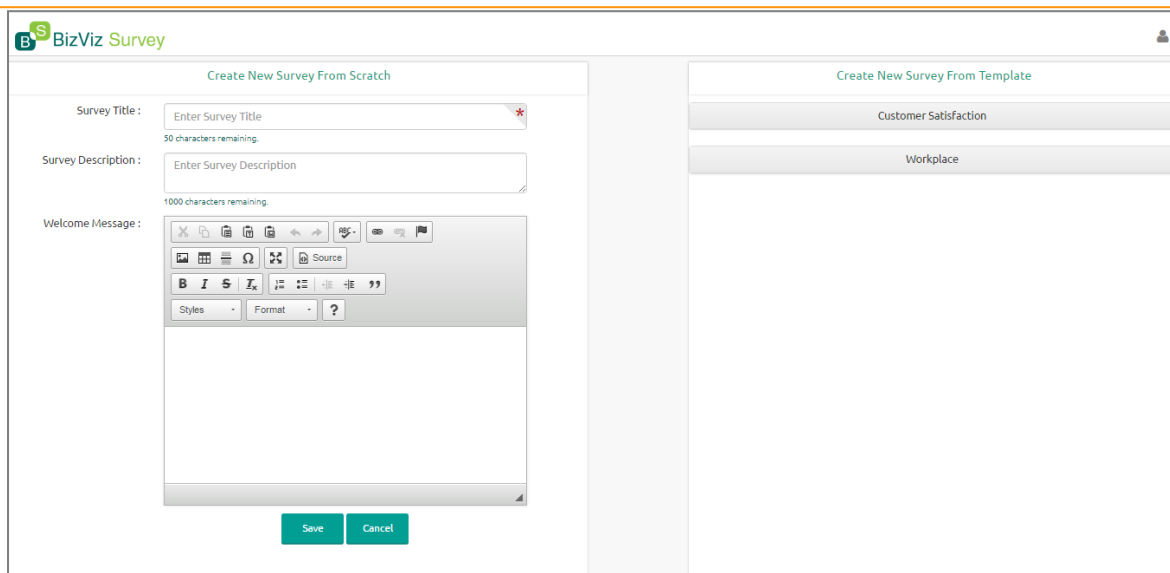

Building Survey is a simple and intuitive process with BDB Survey. It enables any user to create effective and flawless surveys in no time.

This segment to create, develops, and maintain questionnaire for a survey. It describes all the supported features which can be used for designing a survey.

- i) Navigate to the Survey home page.
- ii) Click 'Create Survey'.

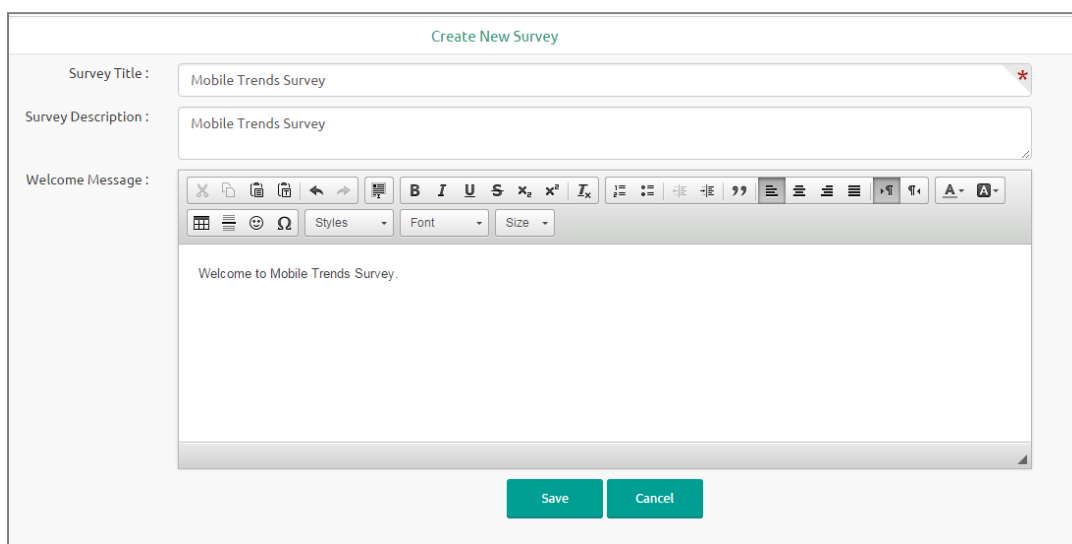

- iii) A new page will open displaying the following options:
 - a. Create New Survey from Scratch
 - b. Create New Survey from Template

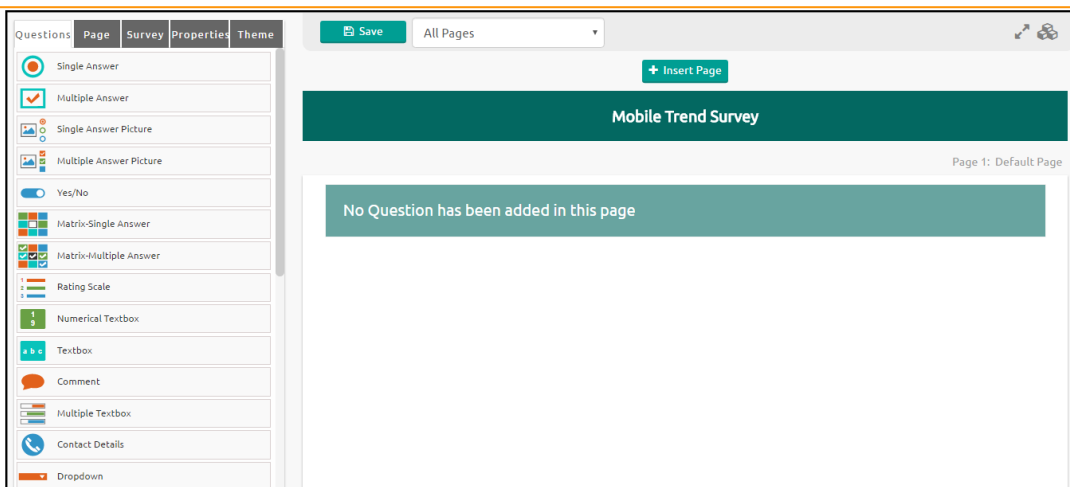

4.1. Creating a Survey using Scratch

- i) Fill in the following information:
 - a. Survey Title
 - b. Survey Description
 - c. Welcome Message
- ii) Click 'Save'.

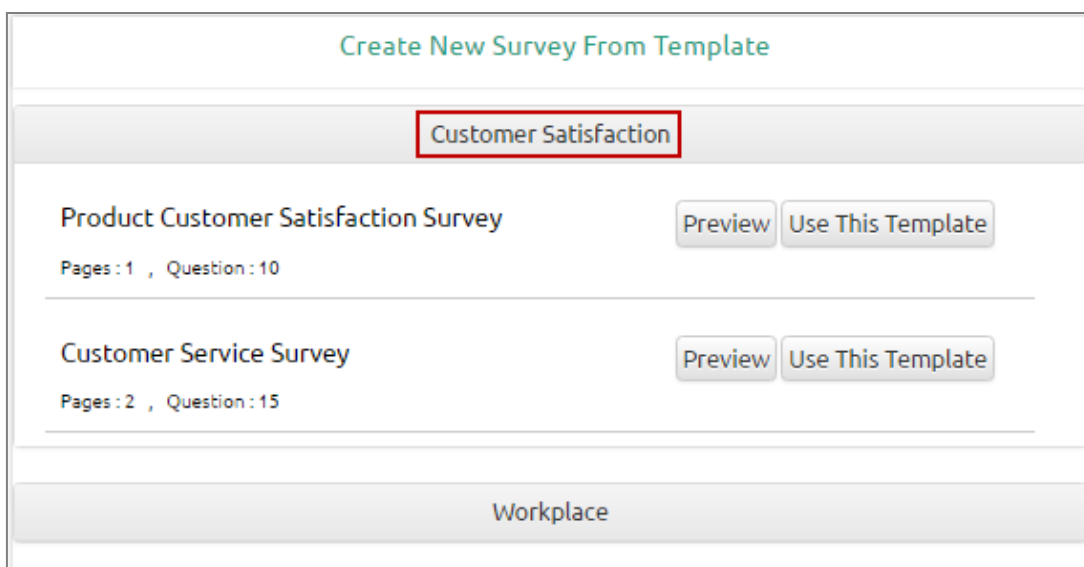

- iii) A new page will open to design a survey questionnaire.
- iv) The page will contain a menu row.

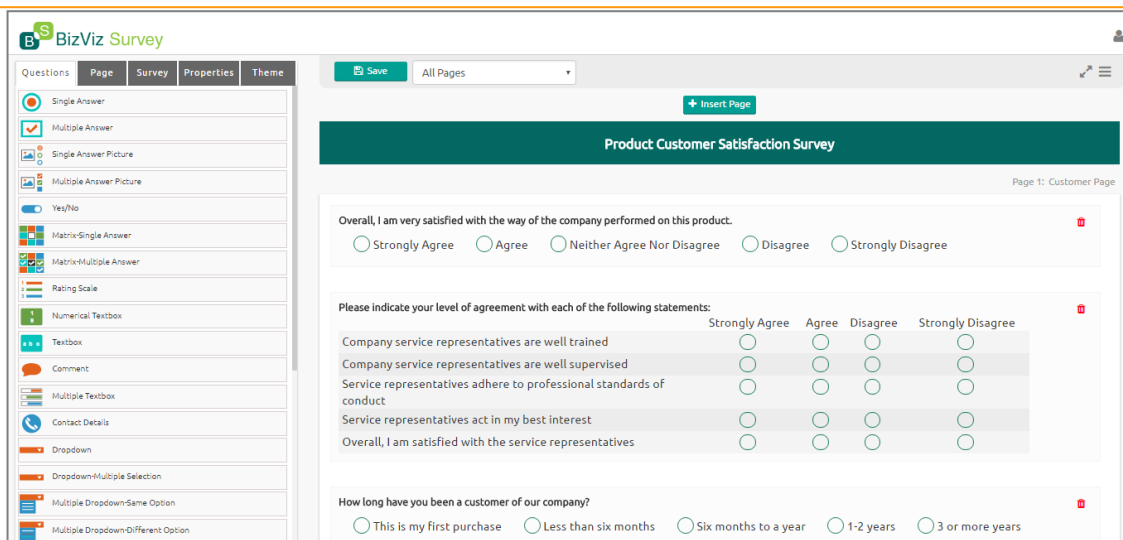

4.2. Creating a Survey using Template

- i) Click on a survey name.
- ii) All the available survey templates will be listed with the following details:
 - a. Preview
 - b. Use This Template

Note:

- a. By clicking on ‘Preview’ option users will be redirected to the preview page of the survey.
- b. By clicking on ‘Use This Template’ option users will be redirected to the following page:

c. Users can modify the selected survey information and questionnaire. The modified survey will be added in the list of survey.

d. A new Survey created via both the above-mentioned options will be added to the Survey List.

- Other Related Options

| Icons | Name | Description |
|-------|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Design Survey | Redirects users to design the survey questionnaire |
| | Publish Survey | Redirects users to publish the survey |
| | Analyze Result | Redirects users to see various analysis based on the collected survey responses |
| | More Options | Displays a list of options to be applied on a survey: <ol style="list-style-type: none"> 1. Preview Survey 2. Benchmark 3. Manage Datamart 4. Delete Survey 5. Copy Survey 6. Survey Summary |

5. Designing a Survey

- i) Navigate to the survey list.
- ii) Click **'Design'** .
- iii) Users will be redirected to the **'Question'** option on a menu row.
- iv) The menu row will provide the following options to develop survey questionnaire:
 - a. Questions
 - b. Page
 - c. Survey
 - d. Properties
 - e. Save
 - f. Insert Page

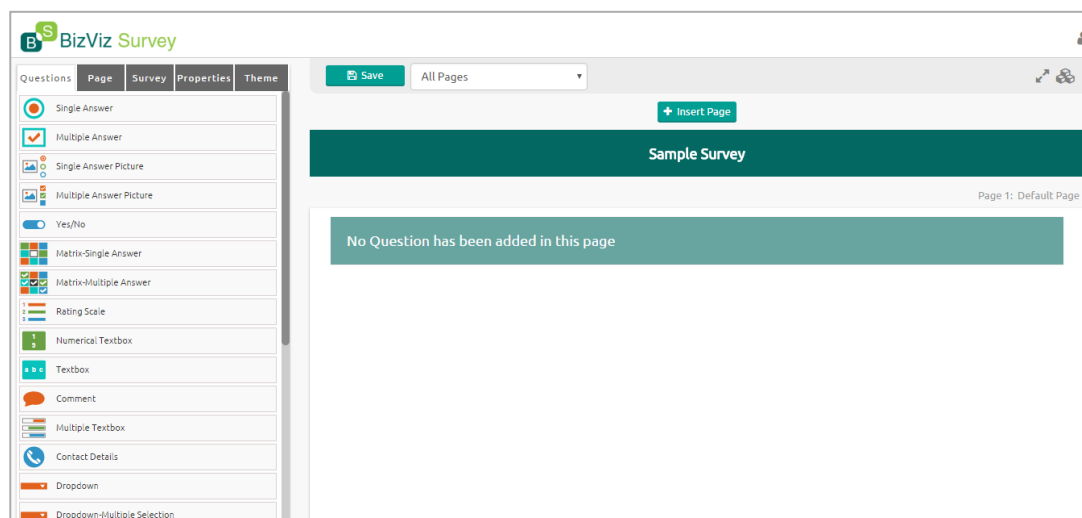

5.1. Questions

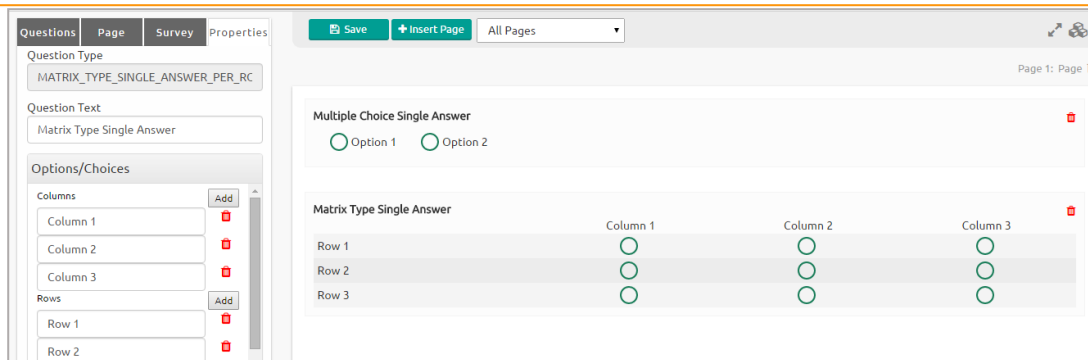

Survey is a carefully created questionnaire. Success of a survey depends upon easy to interpret and goal oriented questions.

Inserting a Survey Question

- i) Navigate to the menu row.
- ii) **'Questions'** will be selected by default.
- iii) Various question types will be displayed on the left pane of the screen.

- iv) Use drag and drop feature or Click on a question type to add it on the right pane of the page.
- v) Rewrite in the given space to design to create a survey question.

Available Question Types

BDB Survey provides with various question types to build an effective survey.

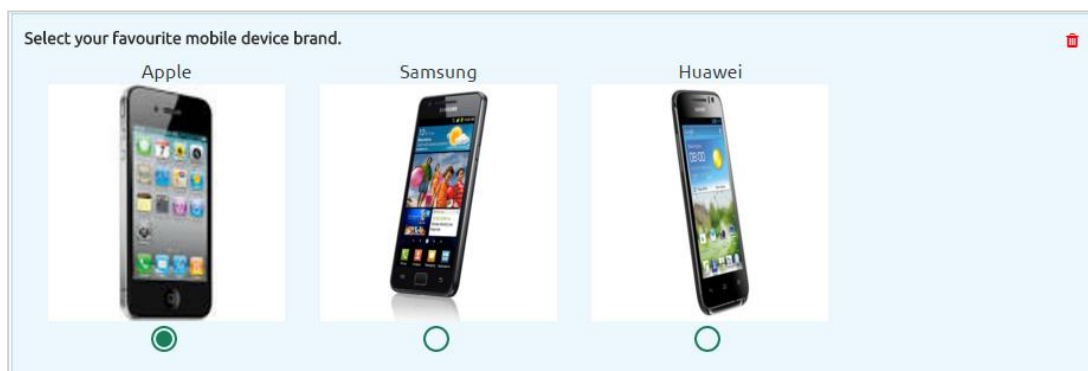

- **Single Answer:** This type of questions are essential questions to restrict respondents to a single option from all the provided options. Selecting an option out of all the provided options will often classify them as members of a group. Example, selecting age group, religion, or gender.

- **Multiple Answer:** Respondents can select one or more options from a list of answers to express their opinion. Multiple choice question type is used, when there are fixed number of options available for a question.

- **Single Answer Picture:** Use this type of question when you want respondents to select only one picture from a list of picture choices.

- **Multiple Answer Picture:** Use this type of question when you want respondents to select more than one picture from a list of picture choices.

Select all the mobile device brand owned by your family. ✖

| | | |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| Apple | Samsung | Huawei |
|  |  |  |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- **Yes/ No:** Use 'Yes/ No' when there are only two possible options for answering the question. This type of question can be also used as end survey questions. 'Required' validation can be applied to this question.

Are you a smartphone user? ★ ✖

Yes No

- **Matrix-Single Answer:** Use this kind of question, if you want respondents to apply the same measurement while answering several related questions. It allows only one answer per row. You also have option to turn the matrix question into a rating scale when you want to assign weights to each answer choice.

Select favorite mobile device brand for each family member. ✖

| | | | |
|---------|-----------------------|-----------------------|-----------------------|
| | Apple | Samsung | Xiaomi |
| Father | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Mother | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Brother | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Sister | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

- **Matrix-Multiple Answer:** Use a Matrix-Multiple Answer question type, if you want respondents to evaluate one or more row items using the same set of column choices. You can set this type of matrix question to collect multiple answers.

Please select the answers that apply to you: ★ ✖

| | | | | | | | |
|--------------------------------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| | Talking | SMS | Whats App | Social Media | Games | Work Related | Internet |
| I use my phone for | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| My 3 most used applications are (select 3) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| I need to upgrade my phone plan so I can do more | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| I use my phone in the office for | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- **Rating Scale:** Questions formed under this type are generally to measure opinions or attitudes of the desired audience. It is to rate a single aspect or thing alongside a spread-out range of possible choices/options. Rating scale is used to assign weights to respondents' answers. Rating is predefined for these questions. E.g. Customer satisfaction survey questions.

How the following factors influence your mobile device purchase? ✖

| | | | |
|-------------|-----------------------|-----------------------|-----------------------|
| | not at all | somewhat | very much |
| Price | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Screen Size | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| OS Features | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Brand | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

- **Numerical Text Box:** Numerical short responses can be collected by using this question type. Alphabetical keyboard is disabled to restrict the respondents to use only numbers.

Howmany mobiles are owned by your family? 

- **Text Box:** To collect single short text or numerical responses from the respondents single Text Box can be used. It can be validated to turn it into a compulsory question. E.g. Pin Code, Designation.

Please enter your favorite mobile device brand. 

- **Comment:** It is difficult to provide specific pre-set answer options to open-ended survey questions; therefore, respondents are required to type their responses into a comment box. Respondents are free to choose the wordings and length of responses. Collected responses can then be viewed separately or through some text analysis tools. Questions falling under this type are often not mandatory to respond.

Please provide your feedback on your current mobile phone. What else do you expect from your smart phone? ★ 

- **Multiple Textbox:** This question type is used to collect multiple short responses for a single question. It includes both, numerical and textual responses. User can specify the answer length and 'Required' validation can be applied to this question type.

Rate how the following factors influence your mobile device purchase. 

Favourite

Second Favourite

Third Favourite

- **Contact Details:** Use this question type to collect basic contact details from the respondents. There are 10 predefined fields given under this question which can be enabled or disabled as per the need of survey.

Fill your contact details in the below given fields: 

Name

Company

Address

Address2

City / Town

State / Province

ZIP / Postal Code

Options

Add

- Apple
- Samsung
- Huawei
- Xiaomi

- User can not avail the drop-down options from the workspace. ‘Dropdown options’ will be enabled only on Preview page or while attempting the survey.
- If ‘Select Option’ is kept blank, then it will take first option by default from the drop-down menu.

- **Ranking:** Use ‘Ranking’ type of question when you want to rank different options. The chosen options will be ranked out of the total number of available choices.

Rank the following mobile brands:

| | |
|---------|-------------------|
| Apple | --Select Rank-- ▼ |
| Samsung | --Select Rank-- ▼ |
| Xiaomi | --Select Rank-- ▼ |

- **Net Promoter Score:** Use ‘Net Promoter Score’ when you want respondents to give a specific score out of 10 for the chosen option.

How likely is it that you would recommend our company to a friend or colleague?

Not at all likely 0 1 2 3 4 5 6 7 8 9 10 Extremely likely

- **Slider:** Use ‘Slider’ when you want respondents to give specific score between selected Minimum and Maximum value. Value given to each step, Minimum value, and Maximum value should be preselected.

Slider 🗑️

Not at all likely

 Extremely likely

Selected Value: 50

- **Digital Signature:** Use this option when you want respondents to give their digital signature. Respondents can provide digital signature through cursor by holding the left click. Respondent can use left click of the cursor to provide digital signature in the given space.

Please give your signature here: ↻ 🗑️

- **File Upload:** Use this option when you want respondents to upload a file. It supports PDF, document, Spread Sheet, and Image to be uploaded. File size should not exceed 500 KB. User can upload the file from preview page or attempt page.

File Upload 🗑️

No file chosen

- **Date/ Time:** Use this option when you want respondents to provide date and time. User can access this feature from survey designer page, preview screen and attempt page. By clicking on the space given for date and time, user will get a calendar to give a date. Time will be taken based on the system clock. User can change the inserted date and time manually.

Date Time 🗑️

- **Image:** Insert an image into your survey by uploading an image file or specifying the URL of an image on the web. The chosen image should not exceed size limit of 1 MB. This type of question can be associated with descriptive, text box, numerical text box, or comment to get meaningful outcome.

Image 🗑️

- **Descriptive:** Use this question type when you want to show brief description about different sections at any place in the survey. It supports smiles and html in the body.

This short survey on your mobile phone usage would only take about 3 minutes of your time. This survey will give you 'Real Time Analytics' and 'Benchmark Analysis'. 🗑️

Note: Delete option is provided with each question type to remove any inserted question from the survey page.

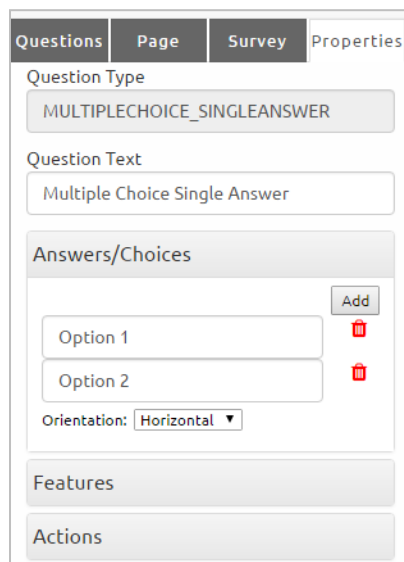

5.2. Properties

All the question related properties are covered under this section. It also consists various types of logic and question validation option.

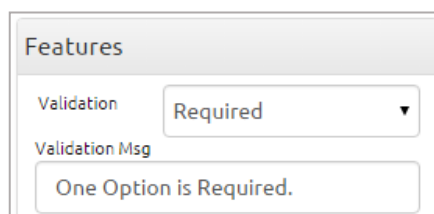

There are two ways to access 'Properties' option:

1. Select a Question Type from the 'Questions' menu
2. Click on the inserted Survey Question

'Properties' will display question specific properties. Such as:

1. **Question Type:** Question type is pre-selected
2. **Question Text:** Question Text can be inserted or modified
3. **Options:** Options can be added, modified, and deleted
4. **Orientation:** **Horizontal** or **Vertical** orientation can be selected from the drop-down menu
5. **Features:** Features include various options to be applied on a selected question. Such as:
 - **Validation**
It restricts skipping of the questions by the recipients while taking a survey. Recipients must attend all the validated questions to move ahead in the Survey. Application of the validation option can be determined by the survey goal and pattern. Validation can be provided to all the available question types under the BDB Survey App.
 - i) Click 'Features' provided on the left side of the Properties page
 - ii) It will display 'Validation' option
 - iii) Select 'Required' from the drop-down menu
 - iv) Question specific Validation message will appear in the below given box

- v) All the Validated Questions will appear with 'Validation' symbol

- **Use Logic**

The aim of logic is to guide the respondents on a specific path for successful completion of the survey. It also helps in getting desired responses from the selected group of participants.

- Click 'Features' provided on the left side of the 'Properties' screen.
- Select 'Use Logic' option by check marking the box.
- 'Options' and 'Logic Type' will be displayed.
- Select a logic from the drop-down menu.
- Selecting a logic will display 'Select' drop-down menu.
- Select 'Check All' option from the 'Select' drop-down menu.
- The selected logic will be applied to the desired option.

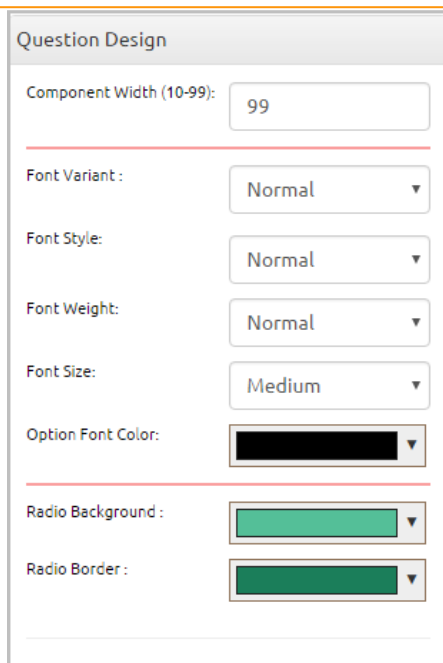

BDB Survey uses below mentioned logic types:

1. **Page Jump:** It is applied to a page. It enables all the respondents to access the immediate next page in the survey. Irrespective of the answers chosen by the respondents, they will be taken to the next page of the survey.
2. **Question Skip:** It enables the respondents to proceed on the next question or page based on the answer selected by them. This logic is applied directly to the question.
3. **Disqualification:** Essentially, this logic is applied to multiple choice questions to disqualify the respondents who fail to meet the required criteria for continuing the survey. A disqualification message will be shown to them restricting their further progress in the survey.
4. **End of Survey:** This logic is generally used after the last question given for the survey to generate Survey completion message for the recipients. It can be applied to a specific question, from where the organizer wants certain respondents to end the survey process.

Note: 'Use Logic' option can be applied to some selected question types. The list includes Single Answer, Multiple Answer, Single Answer Picture, Multiple Answer Picture, and Yes/No question types.

6. **Question Design:** Use the below listed properties to set question display:

- i) **Component Width:** Set the required width number using the 'Stepper' button 
- ii) **Font Variant:** Select an option from the drop-down menu
 - a. Normal
 - b. Small-Caps
- iii) **Font Style:** Select an option from the drop-down menu
 - a. Normal
 - b. Italic
- iv) **Font Weight:** Select an option from the drop-down menu
 - a. Normal
 - b. Bold
- v) **Font Size:** Select an option from the drop-down menu
- vi) **Option Font Color:** Set font color using the available color menu
- vii) **Radio Background:** Set background color for radio buttons using the available color menu
- viii) **Radio Border:** Set border color for radio buttons using the available color menu

5.3. Inserting a New Page

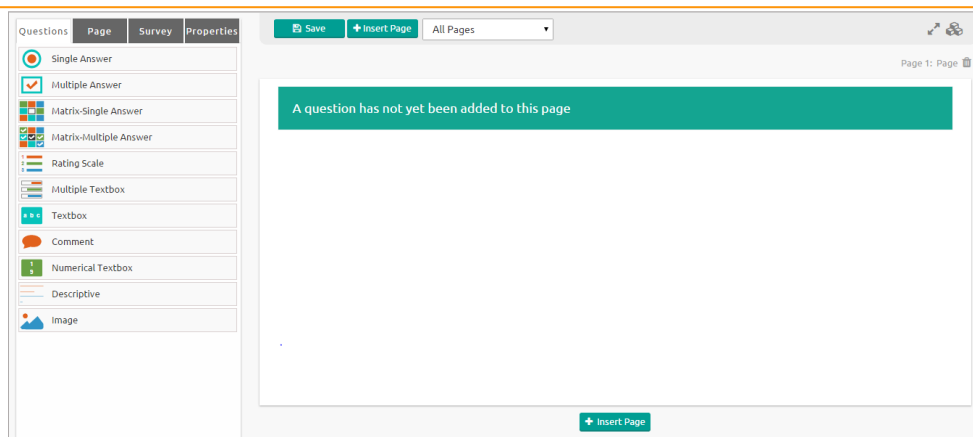

There are two options for inserting a new page in the survey.

1. Insert Page Option at the top of the screen

- i) Click on the '+ Insert Page' option from the Menu Row
- ii) A new page will be inserted **before** the existing page

2. Insert Page Option at the bottom of the screen

- i) Click on the '+ Insert Page' option from the bottom of the screen
- ii) A new page will be inserted **after** the existing page

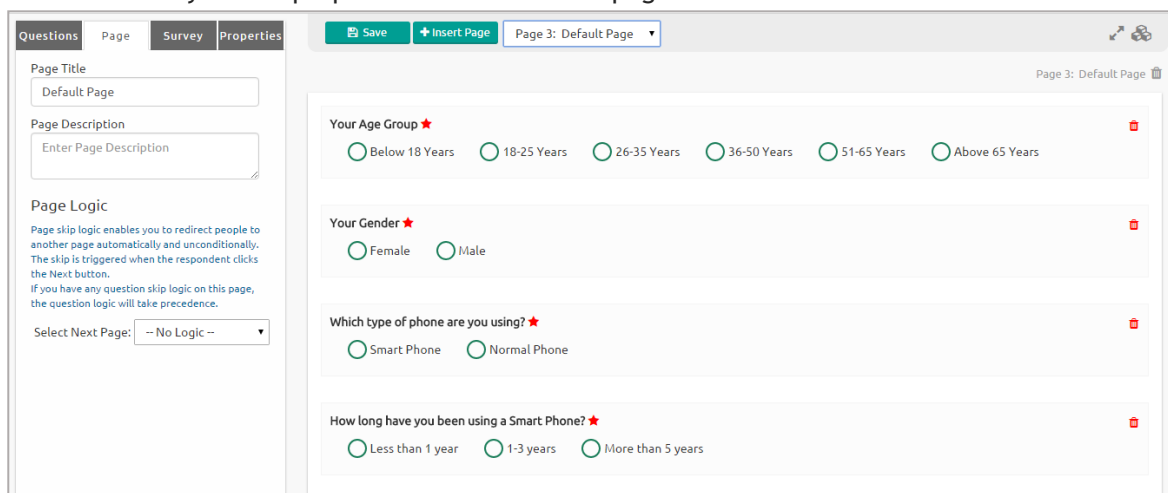

Note:

- a. The newly added page will open with a message that no question has yet been added to that page.
- b. User can delete a page by clicking on the 'Page Delete' option  provided at the top right side of each page.

5.4. Page: Editing an Existing Page

- i) Select any one page from the 'All Pages' drop-down menu
- ii) Click on the 'Page' option from the Menu Row
- iii) Properties of the page will open on the left side of the screen
 - Page Title
 - Page Description
 - Page Logic
- iv) User can modify all the properties of the selected page

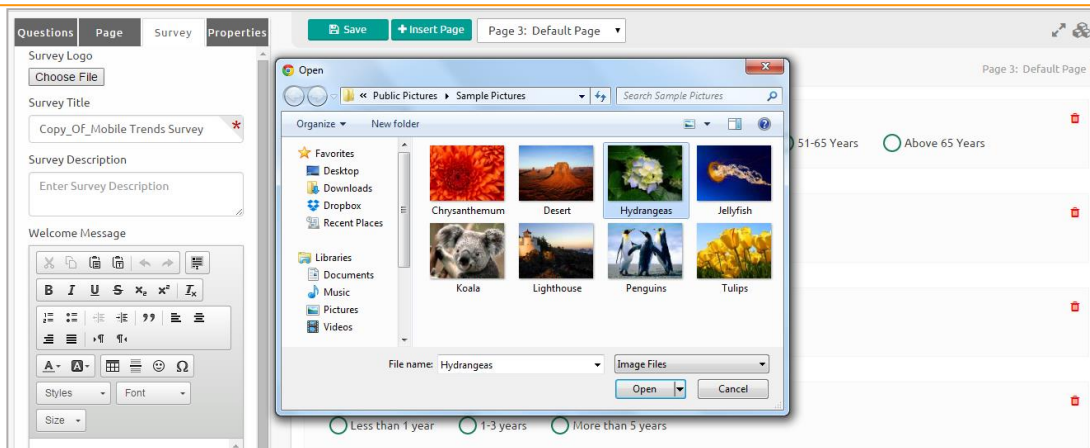

5.5. Survey Option

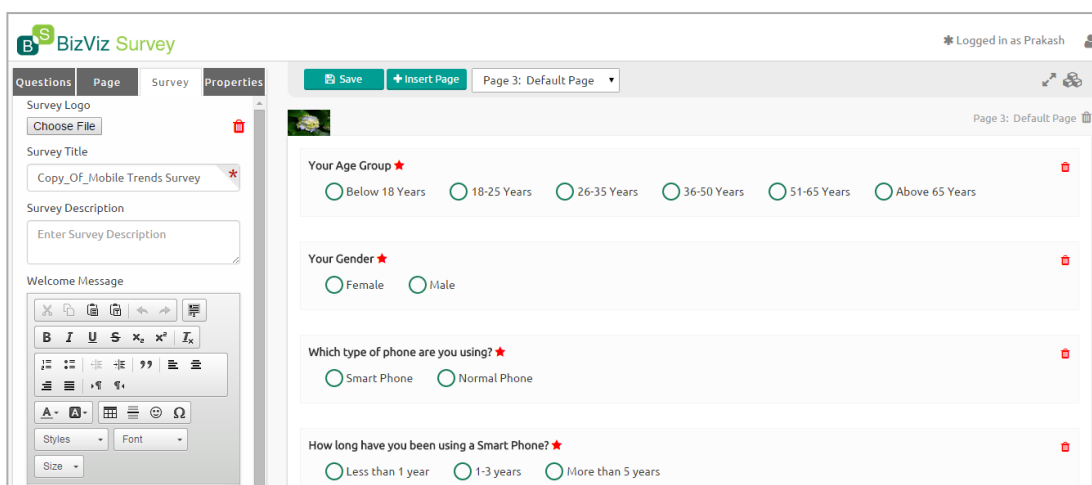

Survey option enables the user to insert a Survey Logo and edit/modify the 'Create Survey' screen.

1. Adding a Survey Logo

- i) Click on the 'Survey' option from the Menu Row.
- ii) It will launch 'Choose File' option.
- iii) Click on the 'Choose File' option.
- iv) Select an image or logo you desire to upload from the current system.
- v) Click on 'Open' to upload the image/ logo.

vi) The uploaded image or logo will be added to all pages of the survey.

vii) Click on the 'Delete' option  provided next to the 'Choose File' option to remove the Survey Logo.

Note: Survey logo can be replaced, if desired.

2. Editing the 'Create Survey' Screen from Survey Option

- i) Click on the 'Survey' option from the Menu Row
- ii) Details of the 'Create Survey' page will be displayed on the left side of the screen. It covers:
 - Survey Title,
 - Survey Description,
 - Welcome Message
- iii) These details can be edited/ modified (if desired)

5.6. Saving a Survey

- i) Click on the ‘Save’ option from the Menu Row to save the changes or modifications
- ii) All the changes will be saved in the survey
- iii) After all the modifications are successfully saved, the ‘Questions’ option will open by default

Note: While inserting questions to a survey, it will save only those questions for what ‘Save’ option was clicked.

- **Other Related Options:**

- ‘Full Screen’ icon  displays the survey questions in full screen (as shown in the following image):

- By Clicking on the ‘More Options’ icon will display a list of options to be applied on the survey. Such as:
 - Edit Questions
 - Publish Survey
 - Benchmark
 - Analyze Survey
 - Preview Survey
 - Summary

6. Publishing a Survey

After designing part of a survey gets over, it can be published via Web link or email to collect responses.

6.1. Providing ‘Publish Survey’ Information

- i) Navigate to the survey list.
- ii) Click ‘Publish’
- iii) Users will be redirected to the ‘Publish Survey’ page.
- iv) Fill in the following information:
 - Publish Name
 - Start Date

- Expiry Date
 - Expiry Date Message
- v) Click 'Create'.

Publish Survey

Selected Survey: Mobile Trends Survey

Publish Name: *
30 characters remaining.

Start Date: *

Expiry Date: *

Expiry Date Message: *

[Create](#)

- vi) The information will be saved and the provided publish name will be added to the 'Publish Your Survey' list.

• **Other Related Options:**

| Options | Task Assigned |
|-------------------------------------------------------------------------------------|------------------------|
|  | Add Web Link Collector |
|  | Add Email Collector |
|  | Edit Publish |
|  | Delete Publish |

6.2. Collector(s): Accessing Collector Options

Collector is an integral part of 'Publish Survey'. Basically, Collector is an online link that can be sent to the end users. Collectors are used to record collected responses from the recipients which can then be used for in-depth analysis.

A single survey can have many collectors to compare the responses collected at different period.

BDB Survey provides two ways to access collector option:

- i) Click 'Create' provided at the end of the publish survey information
- ii) The following options will be displayed to create collector:

Now Create Collector Using :

WebLink Collector
OR
Email Collector

- iii) User can select any one option by a click on it
- OR**
- i) Navigate to the ‘Publish Your Survey’ list
 - ii) Four options will be provided next to the publish name of a survey
 - iii) The First two options ( and ) can be used to create a new collector

6.3. Creating a Web Link Collector

- i) Click ‘Weblink Collector’ or ‘Add Web Link Collector’ option 
- ii) ‘Create Weblink Collector’ page will be displayed
- iii) Enter a name for the collector (Maximum limit given is of 50 characters)
- iv) Click ‘Create’

Create Weblink Collector

Collector Name: *

30 characters remaining.

Close Collector Message: *

Create

- v) The Web Link Collector will be successfully created and added to the ‘Publish Your Survey’ list

• **Related Options:**

| Icon | Name | Allotted Function |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|-------------------------------------------------------------|
|  or  | Switch On/Off button | Switch On/Off button to enable or disable the Weblink |
|  | View URL Link | Displays the URL (link) for the weblink collector |
|  | Edit Weblink Collector | Allows to edit Weblink Collector settings for the end users |

| | | |
|--|------------------------------|-------------------------------|
| | Delete the Weblink Collector | Deletes the created collector |
|--|------------------------------|-------------------------------|

6.4. Creating an Email Collector

- i) Click 'Email Collector' or 'Add Email Collector' option @
- ii) 'Create Email Collector' page will be displayed.
- iii) Enter a name for the collector (Maximum limit given is of 50 characters).
- iv) Click 'Create'.

- v) The Email Collector will be successfully created and added to the 'Publish Your Survey' list.

• Related Options:

| Icon | Allotted Function |
|------|-------------------------------------------|
| | Add Recipients to email collector |
| | Edit collector settings for the end users |
| | Delete the created collector |

6.4.1. Adding Recipients for Email Collector

- i) Click 'Create' option provided on the 'Create Email Collector' page
- ii) 'Add Recipient for Collector' page will be displayed with the pre-defined collector name
- iii) Fill in the following information:
 - **Add Recipients:** Add names of the recipients either from the 'Contact Groups' or insert manually
 - **Email Subject:** Enter a Subject
 - **Body of Email:** It displays a prewritten message. This message can be modified.
- iv) Click on the 'Add Link' option to add the collector link
- v) Click on the 'Create & Send Mail' option

x) Recipients will be successfully added from the selected contact group as displayed below:

Add Recipient For Collector

Collector Name: *

Add Recipients : From Contacts Add Manually

prakash.joshi@bdbizviz.com;prakashjoshi

Add Receptient

2. Adding Recipients Manually

- i) Navigate to the 'Add Recipients for Collector' page
- ii) Select 'Add Manually' option
- iii) Manually add recipients' details into the given space
- iv) Follow the below mentioned format to add the recipient name: [email@email.com;first name;last name](#)

Add Recipient For Collector

Collector Name: *

Add Recipients : From Contacts Add Manually

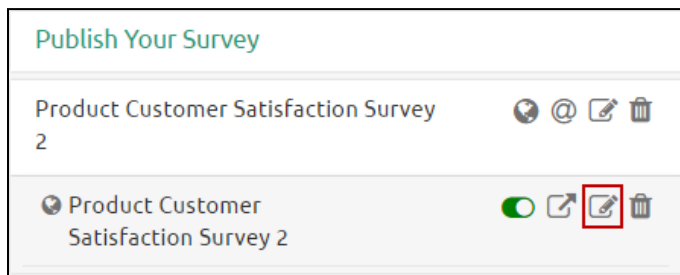

prakash.joshi@bdbizviz.com;prakshjoshi|

(If adding manually please Enter one recipient detail in one line in the order mailid,firstname,lastname seprated by semicolon(;). For Example. john@gmail.com;John;Peterson)

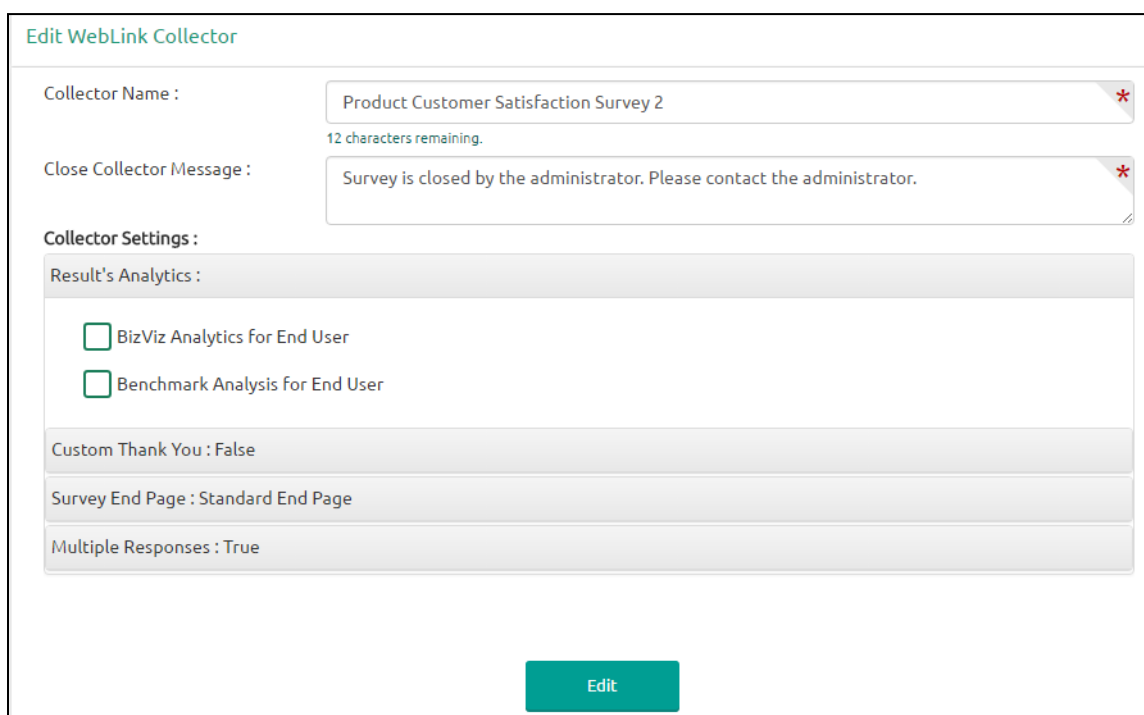

6.5. Editing Collector(s)

- i) Navigate to the 'Publish Your Survey' list.

- ii) Click 'Edit'  provided next to a Collector name.

- iii) 'Edit Collector' option will be displayed on the right pane of the screen.
 iv) The following information can be edited for a collector:
- Collector Name
 - Close Collector Message
 - Collector Settings
- v) Click 'Edit' provided at the end to save the updates.

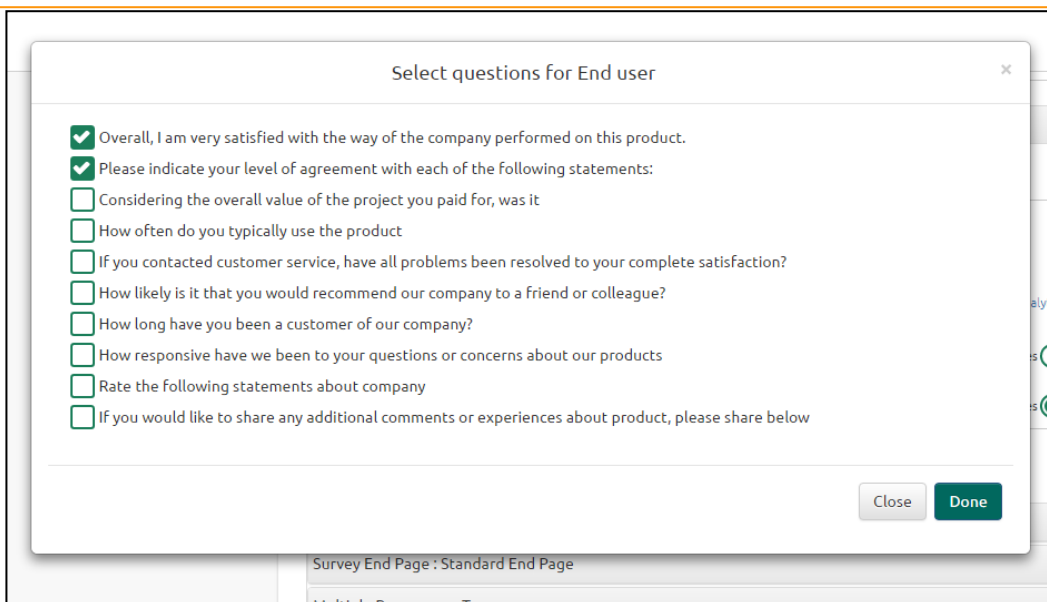

• **Editing Collector Settings**

Collector settings include **BizViz Analytics for End User** and **Benchmark Analysis for End User**.

1. Editing BizViz Analytics for End User

- i) Navigate to the 'Edit Collector' Screen.
- ii) Select 'BizViz Analytics for End User' option by check marking the box.
- iii) Carefully select the following details:
 - a. **Select Questions:** Select a question from the drop-down menu to apply BizViz Analytics.
 - i. Click 'Select questions for End user' option.
 - ii. A pop-up window will open containing the list of questions.
 - iii. Select a question by check marking the box.
 - iv. Click 'Done'.

b. Public Link Status:

- i. Select 'ACTIVE' option to enable the link
- ii. Select 'IN-ACTIVE' option to disable the link

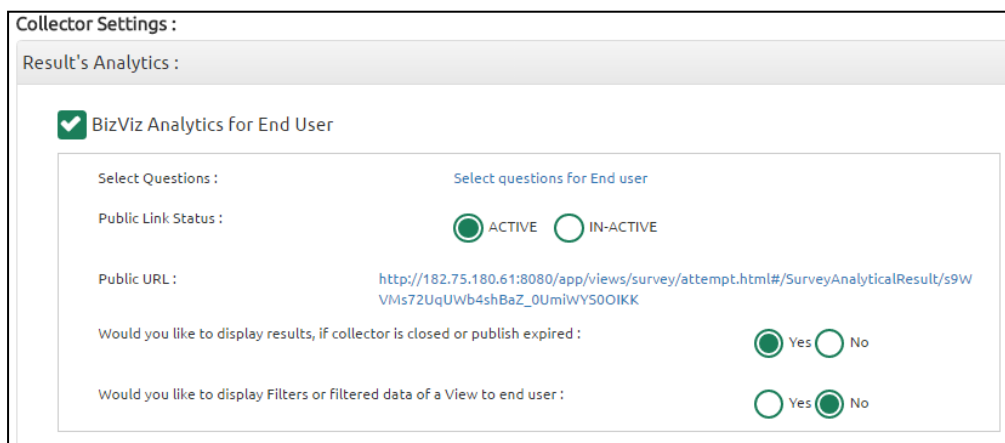

Note: 'Public URL' link will be displayed below the 'Public Link Status', (If 'ACTIVE' option is selected)

c. Display Result Option:

- i. Select any one option out of 'Yes' or 'No'
- ii. Selecting 'Yes' will display the result to the end user, even if the collector is closed or publish has been expired

d. Display Filter Option:

- i. Select any one option out of 'Yes' or 'No'
- ii. Selecting 'Yes' will display the applied filters to the end user

2. Editing Benchmark Analysis for End User

- i) Select 'Benchmark Analysis for End User' option by check marking the box
- ii) Carefully select below mentioned details:

a. Public Link Status:

- i. Select 'ACTIVE' option to enable the link
- ii. Select 'IN-ACTIVE' option to disable the link

Note: 'Public URL' link will be displayed below the 'Public Link Status', (If 'ACTIVE' option is selected)

b. Display Result Option:

- i. Select any one option out of 'Yes' or 'No'

- ii. Selecting 'Yes' will display the result to the end user, even if the collector is closed or publish has been expired

c. Display Filter Option:

- i. Select any one option out of 'Yes' or 'No'
- ii. Selecting 'Yes' will display the applied filters to the end user

Benchmark Analysis for End User

Public Link Status: ACTIVE IN-ACTIVE

Public URL: https://www.bizvizsurvey.com/views/survey/attempt.html#/SurveyAnalyticalResult/r6xc-ITWkLimpmgYU4sXRxL-BfEJ9Z-_WY9-7RSJVeI

Would you like to display results, if collector is closed or publish expired: Yes No

Would you like to display Filter to end user: (If you select Yes then filter created in analysis will not apply) Yes No

Note: Same set of steps can be followed to edit Collector Settings for WebLink and Email collectors.

6.6. Deleting Collector(s)

- i) Navigate to the 'Publish Your Survey' list to access delete collector option.
- ii) Click 'Delete' provided next to a collector name.
- iii) A pop-up window will appear to confirm the deletion.
- iv) Click 'OK'.

The page at <https://www.bizvizsurvey.com> says: ×

Are You Sure, You want to Delete The Collector?

- v) The selected collector will be deleted.

Note: Same set of steps can be followed to delete Weblink and Email collector.

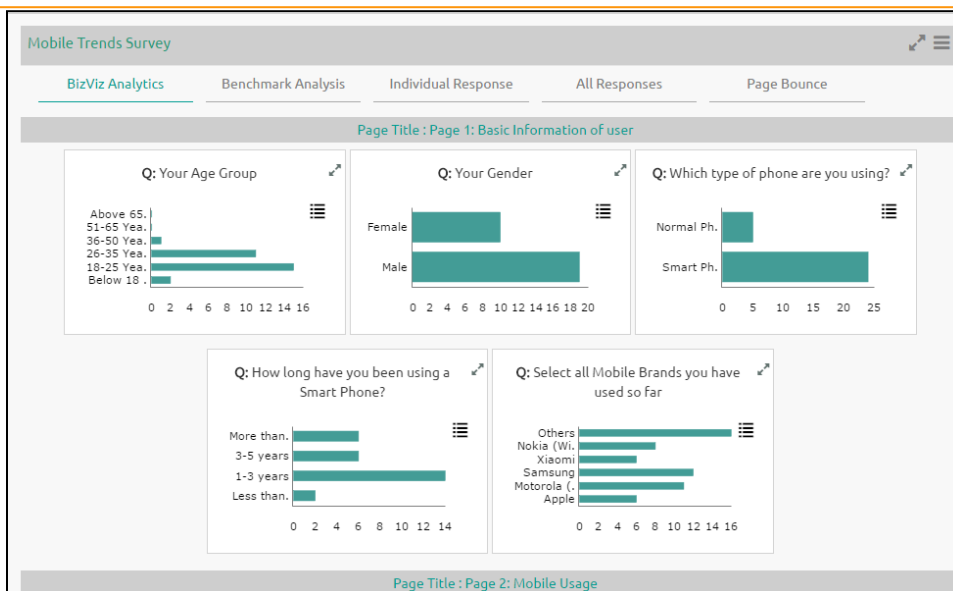

7. Analyzing Result for a Survey

Collected Survey responses are displayed through advanced visualization in this segment.

- i) Navigate to the survey list.
- ii) Click 'Analyze Result' .
- iii) A new page will open containing various analytical options (in a menu row).
- iv) Clicking on each option will open either a visual or information in the full screen.

7.1. BizViz Analysis

This section displays question specific analysis of the survey responses through graphical charts.

Note: BizViz Analysis opens by default as being the first option of this segment.

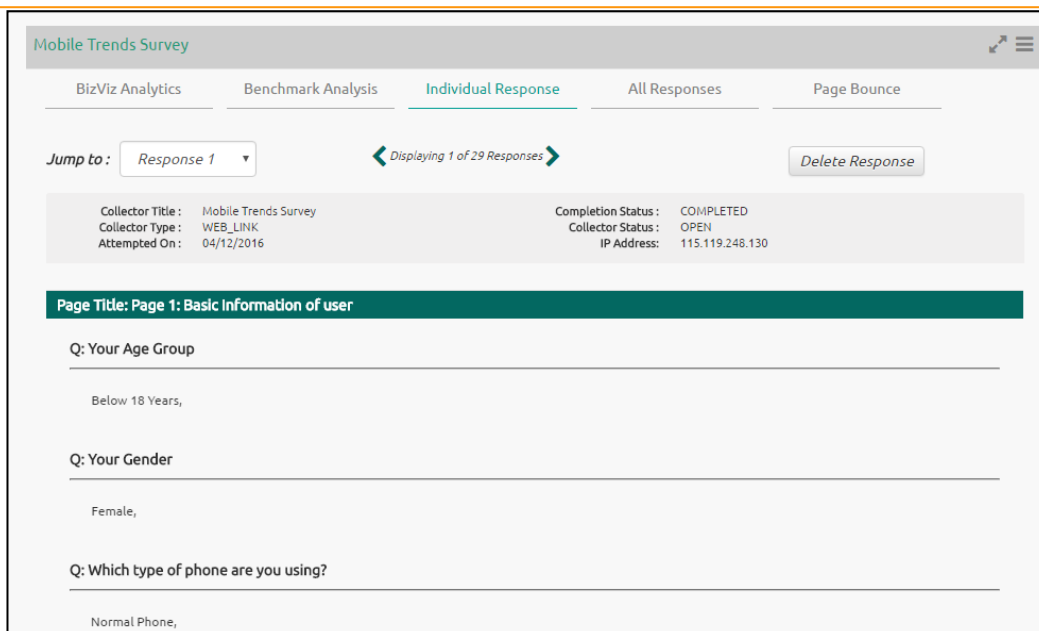

7.2. Benchmark Analysis

Graphical depiction of a Benchmark Value for the selected goal is displayed through this option.

7.3. Individual Response

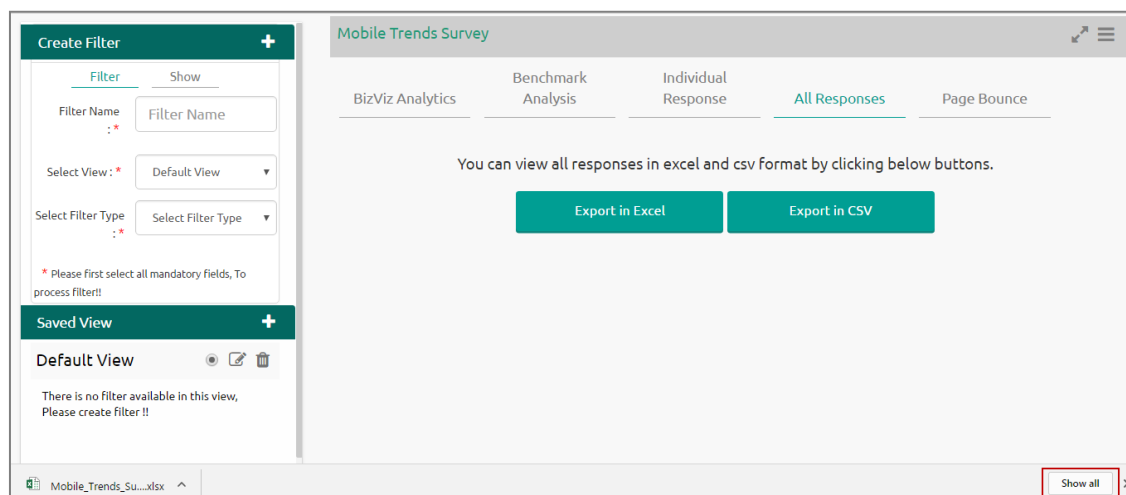

Response recorded from an individual for all the questions of a survey is presented through this option.

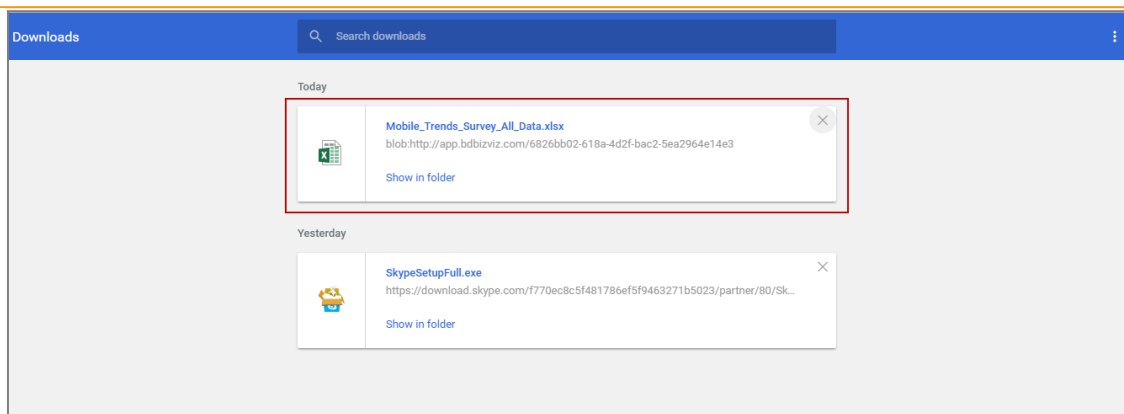

7.4. All Responses:

All the responses recorded from all the recipients for a survey are presented through this option.

- i) Click 'All Responses'
- ii) The following options will be provided to view the responses:
 1. **Export in Excel:**
 - a. Click 'Export in Excel'.
 - b. All the responses will be exported in an Excel file.
 - c. Click 'Show all'.

- d. A new page will be displayed with the downloaded file.

e. Click on the file to open it.

2. Export in CSV:

Click 'Export in CSV' and follow the same set of steps as mentioned for an Excel file to open the survey data in an exported CSV file.

7.5. Page Bounce

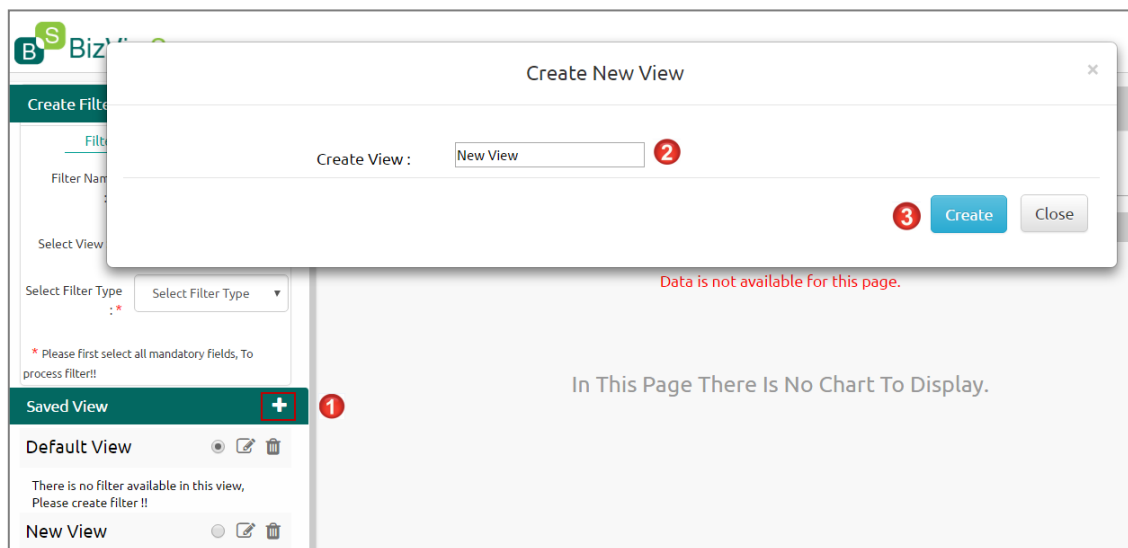

It points out when exactly a survey was ended by its recipients. Page wise proportions of responses are presented through an advanced analytical chart.

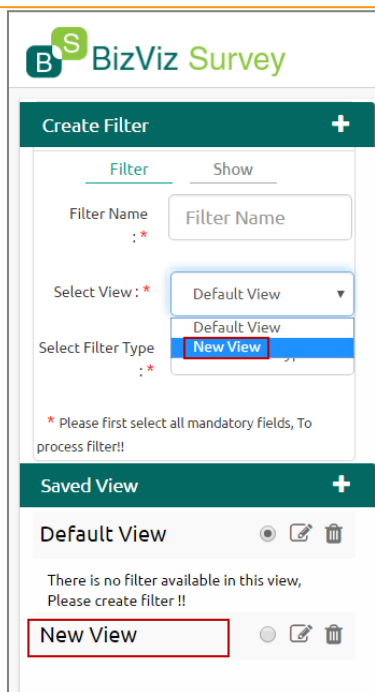

7.6. Creating a New View in the Analyze Result

Users can create a new view and implement it on Analyze Result.

- i) Click the 'Add' symbol on the 'Saved View' row.
- ii) Enter a View name in the pop-up window.
- iii) Click 'Create'.

- iv) A new view will be created and added to the Saved View list
- v) Click the radio button to enable the new view in the Select View drop-down menu

The screenshot shows the 'BizViz Survey' interface. At the top, there is a 'Create Filter' section with a plus icon. Below it, there are two tabs: 'Filter' (active) and 'Show'. Under the 'Filter' tab, there are three fields: 'Filter Name' with a text input field containing 'Filter Name', 'Select View' with a dropdown menu showing 'Default View', and 'Select Filter Type' with a dropdown menu showing 'New View'. A red box highlights the 'New View' option in the dropdown. Below these fields, there is a message: '* Please first select all mandatory fields, To process filter!!'. Below the 'Create Filter' section, there is a 'Saved View' section with a plus icon. It lists two views: 'Default View' and 'New View'. The 'New View' is highlighted with a red box. Below the 'Saved View' section, there is a message: 'There is no filter available in this view, Please create filter !!'.

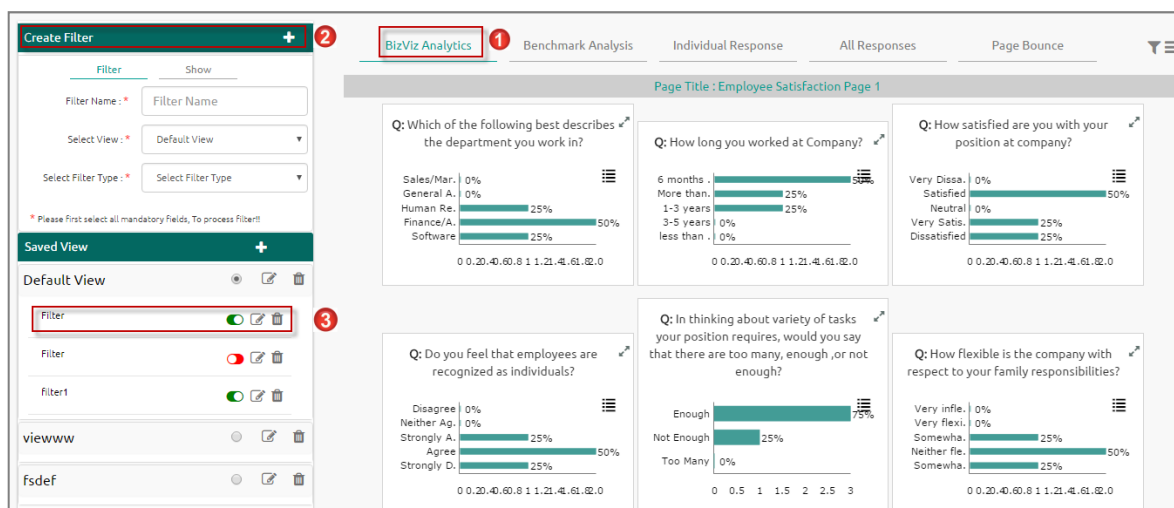

Note: Users can create a list of filters using each created view.

7.7. Filter Rule in the Analyze Result

By default, the Administrator will see all the responses on the 'Analyze Result' page. To see a specific response, the admin will need to apply filters. Filter Rule has been introduced to customize the Analytic display.

7.7.1. Creating a Filter

- i) Navigate to the Analyze Result page
- ii) 'Create Filter' fields will be displayed on the left side of the page
- iii) Fill in the following information:
 - a. Filter Name: Enter a title for the filter
 - b. Select View: Select a view using the drop-down menu
 - c. Select Filter Type: Select a filter type using the drop-down menu
 - d. Select filter type related information as per the given instruction for each selected filter type
- iv) Click 'Create Filter'
- v) The newly created filter will be listed under 'Saved View'

7.7.2. Managing a Created Filter

The following table displays all the required options to manage the created filter.

| Icon | Name of the Icon | Function |
|------|------------------------|----------------------------------------------------------------------------|
| | Active/Inactive button | To activate or deactivate the applied filter rules |
| | | |
| | Edit | To modify or change the filter name, filter view, and filter types choices |
| | Delete | To remove the selected filter |

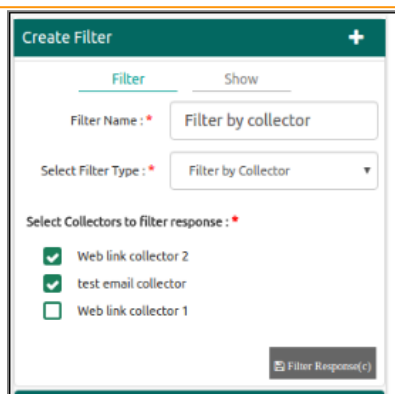

7.7.3. Filter Logic

- A single filter rule uses ‘OR’ logic within the filter.
E.g. the filter rule ‘By Question and Answer’, when applied to a question with two possible answers, can show respondents who choose either of the answer options.
- When Multiple Filter rules are applied simultaneously, they will be combined using ‘AND’ logic. Only results that meet both the selected Filter Rules are shown—a response must meet the criteria of all filters to be included in the filtered dataset.

7.7.4. Filter Types

1. Filter by Collector:

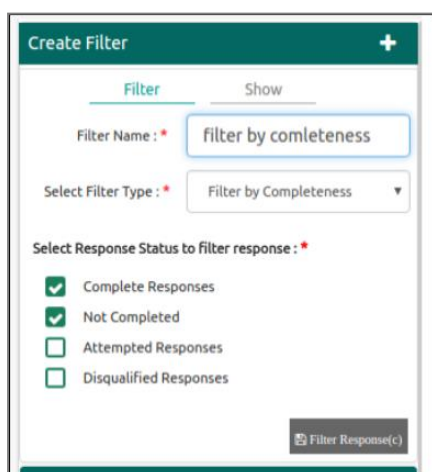

- Users can check the response of a specific collector by applying this filter
- Multiple collector filters can be selected at a time

Note: By default, data collected from all the collectors will be displayed

2. Filter by Completeness

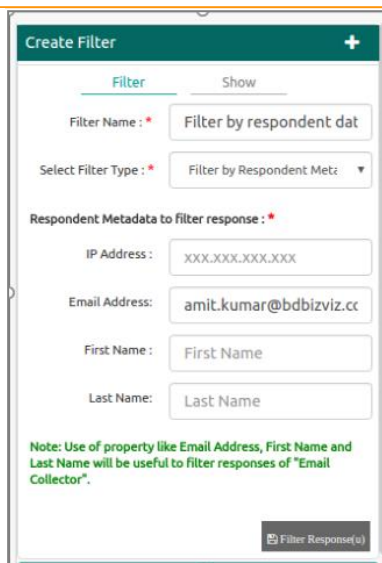

- This option filters responses by their status
- The responses can be divided into 4 sections, based on their status:
 - Completed Responses
 - Not Completed
 - Attempted Responses
 - Disqualified Responses

Note: By default, 'Completed' and 'Disqualified' responses are displayed

3. Filter by Respondent Metadata

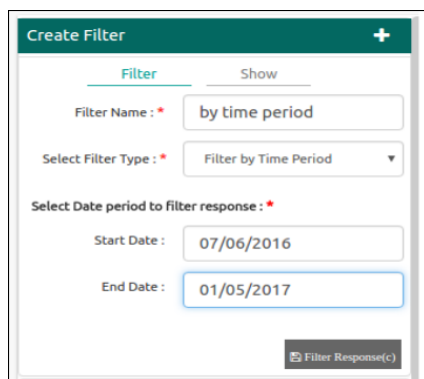

- The collected responses can be filtered based on the respondents' metadata
- Currently, 4 types of metadata details are included:
 - IP Address
 - Email Address
 - First Name
 - Last Name
- The collected responses can be filtered based on any one metadata criteria

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Filter by respondent dat'. The 'Select Filter Type' is 'Filter by Respondent Metz'. Under 'Respondent Metadata to filter response', there are input fields for IP Address (placeholder: XXX.XXX.XXX.XXX), Email Address (value: amit.kumar@bdbizviz.cc), First Name (value: First Name), and Last Name (value: Last Name). A note at the bottom states: 'Note: Use of property like Email Address, First Name and Last Name will be useful to filter responses of "Email Collector"'. A button at the bottom right shows 'Filter Response(s)' with a count of 0.

4. Filter by Time

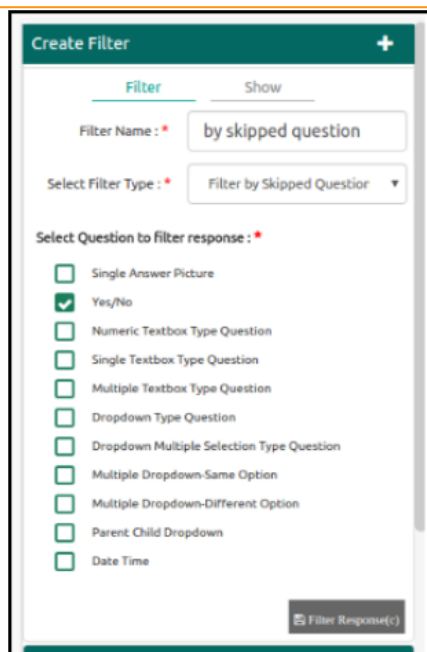

- The time of response is captured when a response is saved
- Select a specific time by providing a start date and end date to filter responses

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'by time period'. The 'Select Filter Type' is 'Filter by Time Period'. Under 'Select Date period to filter response', there are input fields for Start Date (value: 07/06/2016) and End Date (value: 01/05/2017). A button at the bottom right shows 'Filter Response(s)' with a count of 0.

5. Filter by Skipped Questions

- This option can be used to view all the questions where the respondent has not attempted an answer.
- The survey administrator can select a question as the filter to collect responses.

6. Filter by Question and Answer

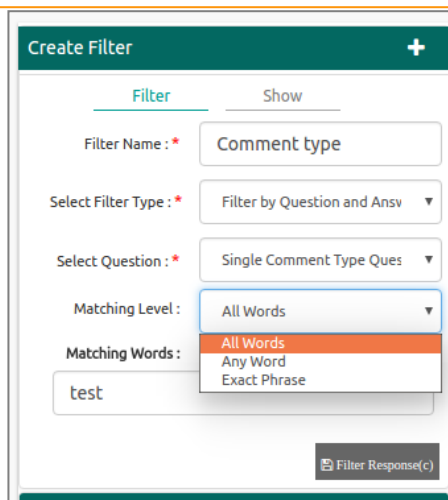

- This filter option is based on the various question types provided for Survey.
- This option contains mainly 2 question types:
 - Closed-ended Questions: Questions with defined answer choices (E.g. Multiple Choice, Matrix, Drop-down etc.)
 - Open-ended Questions: Questions with undefined answer choices (E.g. Textbox, Comment, etc.)

▪ Applying Question-Answer Filter to the Various Question Structures:

This section describes how the input has been taken for the following question types to filter responses.

1. Comment:

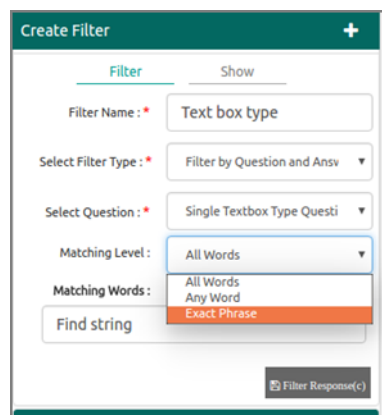

- a. Responses can be filtered by matching the entered text from Users' comment for this question type.
- b. In case of big comments, it depends upon row and column size and text limitation.
- c. Admin can filter some selected text from users' comment as response on any selected level.
- d. Levels on which the text has been matched are:
 - i. All Words
 - ii. Any Word
 - iii. Exact Phrase

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Comment type'. The 'Select Filter Type' is 'Filter by Question and Ansv'. The 'Select Question' is 'Single Comment Type Ques'. The 'Matching Level' is 'All Words'. The 'Matching Words' dropdown is open, showing 'All Words', 'Any Word', and 'Exact Phrase'. The 'Find string' field contains 'test'. A 'Filter Response(c)' button is at the bottom right.

2. Textbox:

- a. Responses can be filtered by matching the entered text from Users' comment for this question type.
- b. This question type is mainly used for small comments.
- c. Admin can filter some selected text from users' comment as response on any selected level.
- d. Levels on which the text has been matched are:
 - i. All Words
 - ii. Any Word
 - iii. Exact Phrase

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Text box type'. The 'Select Filter Type' is 'Filter by Question and Ansv'. The 'Select Question' is 'Single Textbox Type Questi'. The 'Matching Level' is 'All Words'. The 'Matching Words' dropdown is open, showing 'All Words', 'Any Word', and 'Exact Phrase'. The 'Find string' field contains 'Find string'. A 'Filter Response(c)' button is at the bottom right.

3. Multiple Textbox:

- a. Responses can be filtered by matching the entered text from Users' comment for this question type.
- b. This question type is same as Textbox, but users can choose multiple answer choices that will be determined through row.
- c. Admin can filter some selected text from users' comment for only one row of question and one matching level at a time.
- d. Levels on which the text has been matched are:
 - i. All Words
 - ii. Any Word
 - iii. Exact Phrase

4. Contact Details:

- a. Responses can be filtered by matching the entered text from Users' response for this question type.
- b. This is same as Textbox, but the rows will be provided with fixed description in this type of question.
- c. Admin can filter some selected text from users' comment for only one row of question and one matching level at a time.
- d. Levels on which the text has been matched are:
 - i. All Words
 - ii. Any Word
 - iii. Exact Phrase

5. Numerical Textbox:

- a. Responses can be filtered by matching the entered number from Users' response.
- b. Responses can be filtered by given number in filter with all responses of this question.
- c. Constraints on which this filter will be applied are:
 - i. Greater than
 - ii. Less than

iii. Equal to

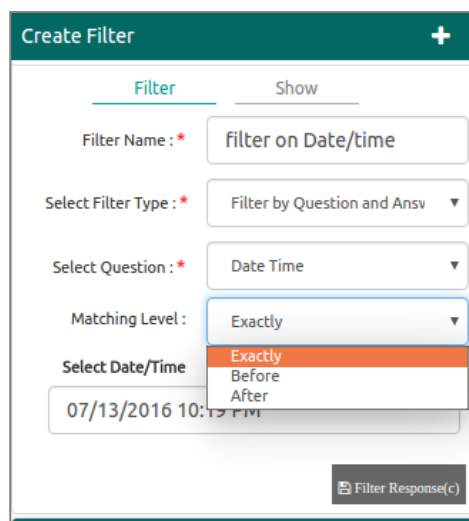

6. Slider:

- a. Responses can be filtered by matching the entered number from Users' response.
- b. This question type is same as Numerical type but users can have option to select value in each range only.
- c. Responses can be filtered by given number in filter with all responses of this question.
- d. The constraints on which this filter will be applied are:
 - i. Greater than
 - ii. Less than
 - iii. Equal to

7. Date and Time:

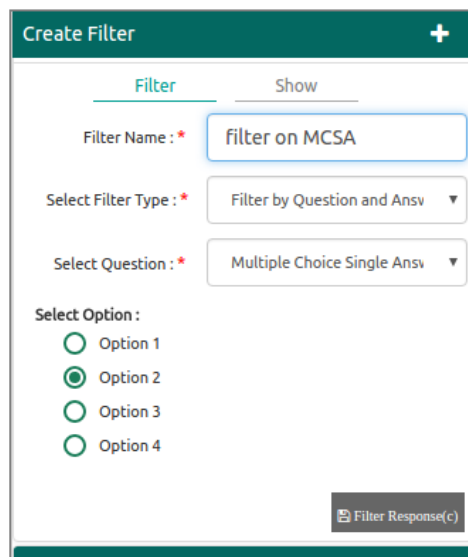

- a. Responses can be filtered by matching the entered date from Users' response.
- b. This question type is same as Numerical type but users can have option to select value in each range only.
- c. Responses can be filtered by given date with constraints of matching level in filter with all responses of this question.
- d. The constraints on which this filter will be applied are:

- i. Exactly
- ii. Before
- iii. After
- e. The above-mentioned constraints will apply on the selected date.

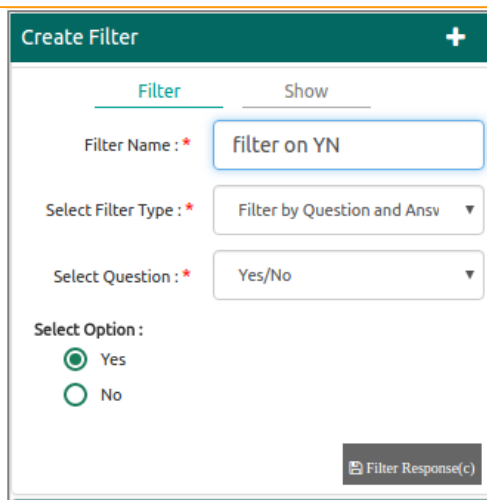

8. Multiple Choice Single Answer:

- a. Responses can be filtered by matching the selected option from Users' response.
- b. Users can select only one option to filter the responses. The selected option will be reflected to all the tabs on the right panel.

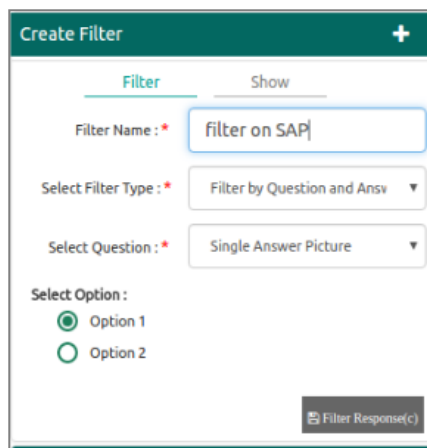

9. Yes/No:

- a. Responses can be filtered by matching the selected option.
E.g. select either 'Yes' or 'No' option from Users' response.
- b. Users can select only one option to filter the responses. The selected option will be reflected to all the tabs on the right panel.

10. Single Answer Picture:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select only one option to filter the responses. The selected option will be reflected to all the tabs on the right panel.
- Users are provided with extra information.
E.g. image with each option is available to express option very clearly.

11. Multiple Answer Picture:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select multiple options to filter the responses. Apply 'OR' logic on the selected options.

14. Rating Scale:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select any one row value from the drop-down menu and any one column from the radio box. Based on this selection response will be filtered.

15. Matrix Single Answer Per Row:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select any one row value from the drop-down menu and any one column from the radio box. Based on this selection response will be filtered.
- Each selection is mandatory.

16. Matrix Multiple Answer Per Row:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select any one row value from the drop-down menu and any one column from the check box. Based on this selection response will be filtered.
- Each selection is mandatory.

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Filter on MTMA'. The 'Select Filter Type' is 'Filter by Question and Ansv'. The 'Select Question' is 'Matrix Type Multiple Answr'. The 'Select Row' is 'Row 2'. Under 'Select Columns', 'Column 1' and 'Column 2' are checked, while 'Column 3' is unchecked. A 'Filter Response(c)' button is at the bottom right.

17. Ranking:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select any one row value from the drop-down menu and any one column from the radio box as rank. Based on this selection response will be filtered.
- Each selection is mandatory.

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Filter on Ranking'. The 'Select Filter Type' is 'Filter by Question and Ansv'. The 'Select Question' is 'Ranking'. The 'Select Row' is 'Option 2'. Under 'Select Column', radio buttons for '1', '2', and '3' are shown, with '2' selected. A 'Filter Response(c)' button is at the bottom right.

18. Dropdown:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select only one option to filter the responses. The selected option will be reflected to all the tabs on the right panel.

The screenshot shows the 'Create Filter' dialog box with the 'Filter' tab selected. The 'Filter Name' is 'Filter on dropdown'. The 'Select Filter Type' is 'Filter by Question and Ansv'. The 'Select Question' is 'Dropdown Type Question'. Under 'Select Option', radio buttons for 'Option 1', 'Option 2', 'Option 3', and 'Option 4' are shown, with 'Option 2' selected. A 'Filter Response(c)' button is at the bottom right.

19. Dropdown Multiple Selection:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select multiple options to filter the responses. Apply 'OR' logic on the selected options. The selected options will be reflected to all the tabs on the right panel.

20. Multiple Dropdown Same Option:

- Responses can be filtered by matching the selected option from Users' response.
- Users can select any one row value from the drop-down (i.e. 'dropdown head') and any one column from the radio box to filter responses. Based on this selection response will be filtered.
- Each selection is mandatory.

21. Multiple Dropdown Different Option:

- Responses can be filtered by matching the selected options from Users' response.
- Users can select any one row value from the drop-down (i.e. 'dropdown head') and any one column from the radio box to filter responses. Based on this selection response will be filtered.
- Each selection is mandatory.

22. Matrix of Dropdown Same Option:

- Responses can be filtered by matching the selected options from Users' response.
- Users can select any one row value, one column value from the drop-down menu and any one option from the radio box. Based on this selection response will be filtered.
- Each selection is mandatory.

23. Matrix of Dropdown Different Option:

- Responses can be filtered by matching the selected options from Users' response.
- Users can select any one row value, one column value from the drop-down menu and any one option from the radio box. Based on this selection response will be filtered.
- Each selection is mandatory.

24. Parent Child Dropdown for Level 2:

- Responses can be filtered by matching the selected options from Users' response.
- Users must select any one option from the 'First Level' drop-down menu and one option from the 'Second Level' drop-down menu. Based on this selection response will be filtered.
- Each selection is mandatory.

25. Parent Child Dropdown for Level 3:

- Responses can be filtered by matching the selected options from Users' response.
- Users must select one option from the 'First Level' drop-down menu, one option from the 'Second Level' drop-down menu, and one option from the 'Third Level' radio box. Based on this selection response will be filtered.
- Each selection is mandatory.

7.8. Show/Hide Rules for Page/Questions

Show Rule will display only the results of the selected questions or specific pages from the Survey.

- i) Navigate to the Analyze Result page.
- ii) Select 'Show'.

The screenshot shows the BizViz Analytics interface. On the left, a 'Create Filter' sidebar is visible with the 'Show' tab selected. The main dashboard displays three horizontal bar charts for the 'Employee Satisfaction Page 1' survey. The first chart shows department preferences: Sales/Mar. (0%), General A. (0%), Human Re. (50%), Finance/A. (50%), and Software (0%). The second chart shows tenure: 6 months (0%), More than. (0%), 1-3 years (0%), 3-5 years (0%), and less than. (0%). The third chart shows satisfaction levels: Very Disa. (0%), Satisfied (100%), Neutral (0%), Very Satis. (0%), and Dissatisfied (0%).

- iii) All the Survey questions will be listed.
- iv) Select questions by check marking in the question's check box.
- v) Click 'Update Show'.
- vi) Results for the selected questions will be displayed on the analyze result page.

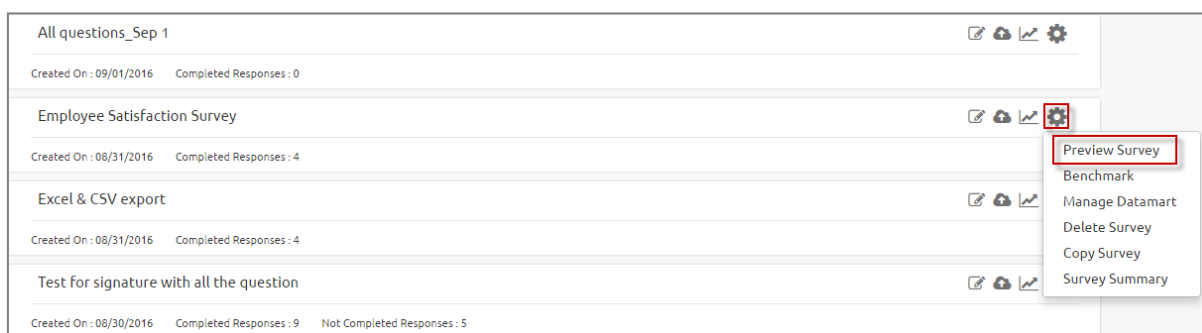

Note: Only one 'Show' rule can be active at a time.

8. More Options

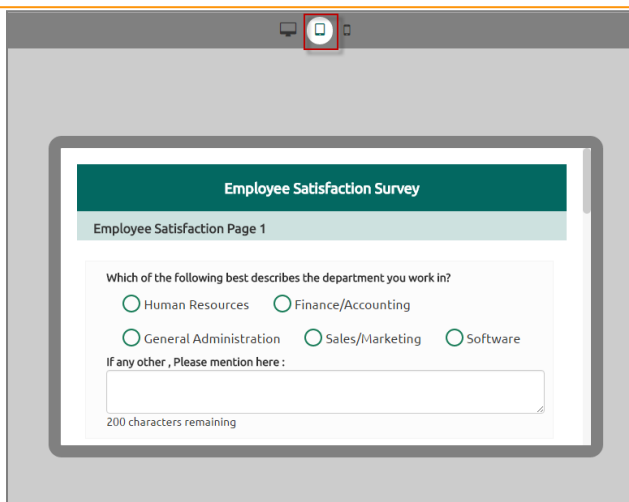

This segment describes various options to be applied on a Survey.

8.1. Preview Survey

- i) Navigate to the survey list.
- ii) Click 'Settings'  for options.
- iii) Select 'Preview Survey'.
- iv) Users will be redirected to the 'Preview' page.

- v) Select any of the device option at the top of the page.
- vi) The Survey questions will be displayed in the selected preview mode.

vii) Click on the 'Close' option (provided for the preview page) to close the preview.

Note: By default, the Desktop preview will open.

8.2. Benchmark

Benchmark is a standard or point of reference for evaluating performance or level of quality. It is pre-requisite to set goals, before using Benchmark as a logic or point of reference to derive at the desired comparison.

8.2.1. Editing a Benchmark

- i) Navigate to the Survey home page.
- ii) Select a survey from the list.
- iii) Click 'Settings' provided next to a survey name.
- iv) A context menu will open.
- v) Select 'Benchmark' from the menu list.
- vi) Users will be redirected to the 'Edit Benchmark' page.
- vii) A new Benchmark will be created and entitled as 'Survey Title-Benchmark'.
E.g. Mobile Trend Survey will have a benchmark entitled 'Mobile Trend Survey-Benchmark' by default.
- viii) Users can edit the below mentioned fields (if desired). Such as:
 - Benchmark Title
 - Benchmark Mission
 - Benchmark Vision
- ix) Click 'Save' to save the edited information.

Edit Benchmark

Benchmark Title :

20 characters remaining.

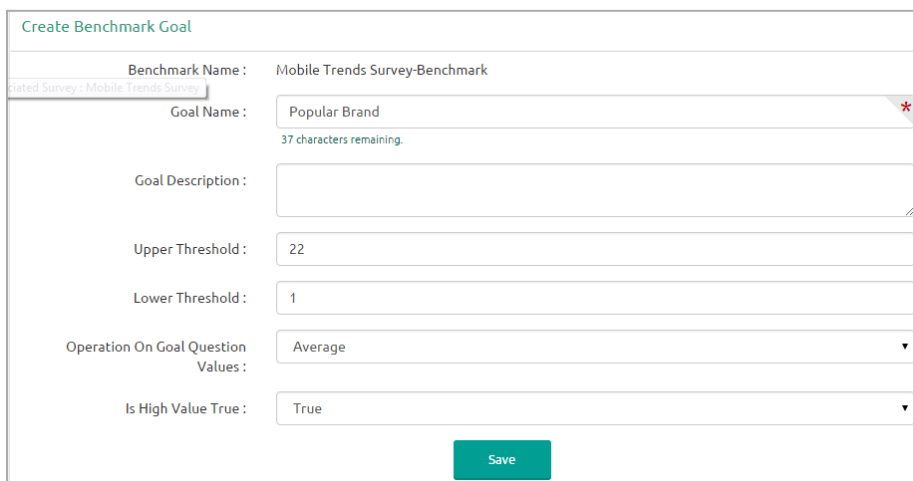

Benchmark Mission:

Benchmark Vision:

Save

8.2.2. Adding Goal to a Benchmark

- i) Navigate to the benchmark page.
- ii) Click 'Add New Goal'  on the left pane of the page.
- iii) Users will be redirected to the 'Create Benchmark Goal' page.
- iv) Fill in the following information:
 - Goal Name
 - Goal Description
 - Upper Threshold
 - Lower Threshold
 - Operation on Goal Question Values: Select an option from the drop-down menu
 - Is High Value True: Select an option from the drop-down menu
- v) Click 'Save'.

The screenshot shows a form titled "Create Benchmark Goal". It contains the following fields and values:

- Benchmark Name:** Mobile Trends Survey-Benchmark
- Goal Name:** Popular Brand (with a red asterisk validation symbol and "37 characters remaining" text below it)
- Goal Description:** (empty text area)
- Upper Threshold:** 22
- Lower Threshold:** 1
- Operation On Goal Question Values:** Average (dropdown menu)
- Is High Value True:** True (dropdown menu)

A green "Save" button is located at the bottom center of the form.

- vi) A Benchmark goal will be added to the benchmark.

Note:

- a. Benchmark name will be displayed by default.
- b. Fields with validation symbol  are mandatory.
- c. It is advisable to select 'True' option for 'Is High Value True' field.

8.3. Editing a Benchmark Goal

- i) Select 'Edit'  provided next to a Benchmark goal name (on the left pane of the page)
- ii) Users will be redirected to the 'Edit Benchmark Goal' page (on the right pane of the page)
- iii) Edit the below mentioned details (if desired):
 - Goal Name
 - Goal Description
 - Upper Threshold
 - Lower Threshold
 - Operation on Goal Question Values: select an option from the drop-down menu
 - Is High Value True: Select an option from the drop-down menu
- iv) Click 'Update Goal'.

Edit Benchmark Goal

Benchmark Name : Mobile Trends Survey-Benchmark

Goal Name : Popular Brand *
37 characters remaining.

Goal Description :

Upper Threshold :

Lower Threshold :

Operation On Goal Question Values :

Is High Value True :

v) The edited goal information will be saved.

8.3.1. Deleting a Benchmark Goal

- i) Select 'Delete' provided next to the benchmark goal name (on the left pane of the page).
- ii) A pop-up message will appear to confirm deletion.
- iii) Click on 'OK'.

iv) The selected benchmark goal will be deleted.

8.3.2. Adding Questions to a Benchmark Goal

- i) By clicking 'Save' from the 'Create Benchmark Goal' users will be directed to 'Add Questions for Goal' page.
- ii) Select Questions using the drop-down menu.

Add Questions For Goal

Survey Name : Mobile Trends Survey

Benchmark Name : Mobile Trends Survey-Benchmark

Goal Name : Popular Brand

Select Questions : *

- iii) Users to 'Enter Question Rule Value for Goal' screen.
- iv) Select value for each answer option.
- v) Select an 'Operation' to be performed on the answer options (if asked based on the question type).

Three options will be provided under the ‘Operation’ drop-down menu:

- Addition
- Multiplication
- Average

vi) Click ‘Done’.

vii) Users will be directed back to the ‘Add Questions for Goal’ page.

viii) Click ‘Save’.

ix) Selected question will be successfully added to the Benchmark Goal.

Note:

- Users cannot exceed the set threshold limits while entering question rule value for a goal or selecting an operation.
- Click ‘Show Help?’ to display an example to be followed for the question rule value.

8.3.3. Viewing a Goal Question

i) Navigate to the benchmark goal page

ii) Click ‘View Goal Question’

iii) A list view of all the added questions will be displayed as per:

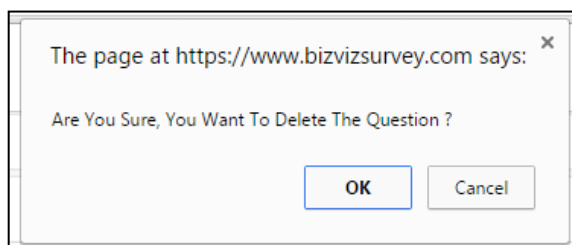

- Associated Questions
- Question Type
- Calculated Value
- Actions

| Associated Questions | Question Type | Calculated Value | Actions |
|-----------------------------------------------|-----------------|------------------|---------|
| Select all Mobile Brands you have used so far | Multiple Answer | 6.42 | |

Note: Click 'Edit Question'  provided under 'Actions' to edit the entered question rule value for goal or chosen operation.

8.3.4. Deleting a Benchmark Goal Question

- i) Navigate to the question list for a benchmark goal.
- ii) Click 'Delete'  provided under 'Actions'.
- iii) A pop-up window will appear to confirm the deletion.
- iv) Click 'OK'.

- v) Selected question will be removed from the benchmark goal.

8.4. Managing Datamart

Datamart option is provided to write the survey data inside a data base. This function can help the user to store the collected responses of a survey and update them.

8.4.1. Creating a Datamart

- i) Navigate to the survey home page
- ii) Click 'Settings' button  provided next to a survey name
- iii) A drop-down menu will be displayed
- iv) Select 'Manage Datamart' option from the drop-down menu
- v) A new screen will be launched to create/ update Datamart
- vi) Fill the following information:
 - a. **Datamart Status:** It will show that no Datamart has been created.
 - b. **Database Type:** Currently **MySQL** database is supported.
 - c. **Database Name:** Enter a name of the database where you want to write the survey data
 - d. **URL:** Enter the proper IP link or data address
 - e. **Port:** Provide port number
 - f. **User Name:** Provide user name
 - g. **Password:** Provide password
 - h. **Datamart Description:** Enter description about the Datamart. (It is an optional field)
- vii) Click 'Create/ Update Datamart' to create a Datamart
OR
 Click 'Reset' to reset the details (if required)
